

AMENDMENT IN THE SPECIFICATION

1) Please insert the following paragraph on page 1, between the title and the paragraph of claim of claim of priority:

This continuation application makes reference to, incorporates the same herein, and claims all benefits including under 35 U.S.C. §121 from a co-pending application entitled *DIGITAL VIDEO CASSETTE RECORDER FOR PREVENTING PICTURE DISTORTION DURING SEARCH AND METHOD FOR PROCESSING PICTURE USING THE SAME* filed in the United States Patent & Trademark Office on the 1st of July 1998 and there duly assigned Serial No. 09/108,315.

2) Please amend the first paragraph on page 2, from line 2 thru line 6, as follows:

The digital video cassette recorder has a search mode and a normal reproduction mode. The digital video cassette recorder cannot reproduce a picture having the [plurality] quality of a normal picture in the search mode, since it scans more tracks at a time than in the normal reproduction mode. Accordingly, image data which is difficult for a human to recognize is displayed during the search mode.
